

## **JOST PLANS FOR THE FUTURE**

With its sights firmly set on further growth and improved customer service through a renewed and reinvigorated market-focus, JOST has reorganised for the future. As a result, JOST-GB Limited has a new three-man management team comprising Paul Farthing as Managing Director, Mike Johnson as the Sales and Marketing Director and Dave Deri as Technical Director . These changes take place with immediate effect.

"JOST-GB is an integral and important element within the JOST World Group," says Paul Farthing. "We at JOST always place the greatest emphasis on customer satisfaction and our recent restructuring is intended to further enhance this reputation within the UK market."

"Changes in the scope of our business, including the recent addition of specialist trailer steering manufacturer TRIDEC, have placed new and additional demands on our organisation," comments Mike Johnson. "Moreover, the safety-critical nature of our business demands the highest levels of technical support and customer service and here the entire JOST GB team will be working together to ensure our high standards are not only maintained but continuously improve moving forward."

As a result of the restructuring, Roy Taylor, previously Managing Director for JOST-GB Limited, has left the company. "We would like to thank Roy for his work with JOST and wish him all the very best for the future," says Mike Johnson.
